Commercial 4-Layers Square Glass Cake Showcase / Display Chiller

Secop Compressor | Ventilated Airflow Circulation | Stainless Steel / Marble Base

CRAFTSMANSHIP HIGHLIGHTS / 核心卖点

- **Dynamic Ventilated Airflow:** Precision-engineered fan circulation system distributes chilled air evenly across all 4 tiers without drying cake sponge or frosting surfaces.
- **Premium Secop Compressor:** High-efficiency imported Secop refrigeration unit delivers powerful, whisper-quiet operation and rapid temperature pulldown up to 40°C ambient.
- **Heated Anti-Fog Square Glass:** Multi-layer hollow tempered glass with built-in electric heating filaments ensures condensation-free clarity and prevents altitude bursting up to 2500m.
- **Robust S/S & Marble Base:** Precision-welded heavy-duty stainless steel or thickened natural marble counter foundation with smooth, seamless edges for sanitary cleaning.

APPLICATION SCENARIOS / 场景展示

Bakery & Patisserie

1. Artisan Cake & Pastry Shop

Four expansive levels of illuminated square glass display. Keeps delicate cream layers and macarons moist, attractive, and visually prominent at customer eye-level.

Hotel & Fine Dining

2. Luxury Hotel & Buffet Lounge

Brushed stainless steel or marble casing complements upscale interior dining halls. Constant +2~+8°C ensures food hygiene standards for high-turnover desserts.

Café & Bistro

3. Modern Boutique Café

Low-vibration Secop compressor creates a quiet dining environment while accommodating pre-packaged sandwiches , fruit cups, and bottled cold beverages.

PRODUCT SPECIFICATIONS / 产品参数

Model / Category	SCLG4-520FK4 (4 Layers Showcase)
Dimensions (W*D*H)	1200 × 700 × 1350 mm
Material & Finish	Brushed Stainless Steel / Marble
Cooling System	Ventilated / Dynamic Air Cooling
Compressor Unit	Secop Brand Heavy-Duty
Voltage / Power	220V/50Hz (110V/60Hz Custom Option) | Power: 819 W
Net / Gross Weight (N / G. W.)	320 / 460 kgs
Illumination	Full-Height Warm LED Strip Lighting on Every Shelf Tier & Vertical Frame
